

KIMBUGWE A. KATEREGGA, PH.D.

FORT MYERS, FL

Dr. Kateregga joined Foster Associates in 1986 as a specialist in depreciation, valuation, the economics of capital investment decisions and technological forecasting. He has participated in conducting numerous studies for both public and privately-owned utilities and has contributed extensively to the development of statistical models, life analysis and depreciation software used by Foster Associates and clients of the firm. Dr. Kateregga has provided expert opinion in a number of administrative proceedings and has authored papers on the subject of depreciation, valuation and related fields of study. Prior to joining Foster Associates, Dr. Kateregga was a research assistant at Iowa State University where he received his Ph.D. degree in engineering valuation.
